EXPERIENCE (CONTINUED)

Senior PHP Developer

WPDeveloper — Dhaka, Bangladesh

01/2024 – 03/2025

- Led development of the white-label, multi-tenant architecture powering the Easy.jobs SaaS platform.
- Integrated Zapier, HackerRank, Zoom, Slack, and Calendly, expanding platform capabilities for enterprise customers.
- Designed scalable REST APIs consumed by Vue.js applications, ensuring fast and reliable data exchange.
- Optimized database queries and backend processes, significantly improving response times and scalability.

PHP Developer

WPDeveloper — Dhaka, Bangladesh

10/2021 – 12/2023

- Developed core backend services and REST APIs for the Easy.jobs recruitment SaaS platform.
- Shipped user-facing features in Laravel and Vue.js, continuously improving the candidate and employer experience.
- Tuned queries and refactored backend processes, delivering measurable gains in performance and reliability.

Software Engineer

Inilabs — Dhaka, Bangladesh

01/2018 – 09/2021

- Built and maintained commercial CodeCanyon products with CodeIgniter, Laravel, and Vue.js, serving thousands of customers worldwide.
- Delivered software solutions in Java and Python across a range of client applications.
- Implemented client-requested features and resolved critical bugs across multiple SaaS products, boosting customer satisfaction.
- Partnered with cross-functional teams to gather requirements, define scope, and plan releases.
- Conducted code reviews, enforcing quality standards and mentoring junior developers.

EDUCATION

BSc, Computer Science & Engineering

Green University — Dhaka

2022

Diploma, Computer Science

Comilla Polytechnic Institute

2017
